Welcome To yet another poorly designed web site. This site is incorrectly detecting that you have an old browser because we are clueless. We use features such as integrated BSODing and hard drive formatting that may not occur in your browser.

Stupid Web Pages - Nathan's Toasty Technology Page
The display resolution or display modes of a digital television, computer monitor or display device is the number of distinct pixels in each dimension that can be displayed. It can be an ambiguous term especially as the displayed resolution is controlled by different factors in cathode ray tube (CRT) displays, flat-panel displays (including liquid-crystal displays) and projection displays ...

After last week's post on How to Make Digital Comics I quickly realized there is an awful lot of you out there looking for this kind of information. So thank you for dropping by and checking it out. Feel free to leave comments or questions as well! This week I want to talk about page sizes and resolution.

How to Make Digital Comics Pt. 2 (Page sizes and resolution)

18 Responses to Not Designing for Most Common Screen Resolution. Don Moore Says: December 17th, 2008 at 8:24 am . The reference to the Webstyle Guide is outdated (2004). We are on the horizon of moving to the 1024 width, though our stats still show 17% of our audience is not there yet.

Not Designing for Most Common Screen Resolution

About. Section 165(d) of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires that bank holding companies with total consolidated assets of $50 billion or more and nonbank financial companies designated by the Financial Stability Oversight Council (FSOC) for supervision by the Federal Reserve periodically submit resolution plans to the Federal Reserve and the Federal Deposit ...

Promises/A+. An open standard for sound, interoperable JavaScript promises—by implementers, for implementers. A promise represents the eventual result of an asynchronous operation. The primary way of interacting with a promise is through its then method, which registers callbacks to receive either a promise's eventual value or the reason why the promise cannot be fulfilled.
