A bollard is a sturdy, short, vertical post. The term originally referred to a post on a ship or quay used principally for mooring boats, but is now also used to refer to posts installed to control road traffic and posts designed to prevent ram raiding and car ramming attacks

Bollard - Wikipedia

Are you running this as a scheduled task? If so set it to run as a different user account then it won't be visible to the logged on user. If the script needs no network access to items that need windows auth (like file shares or printers), you can run it as "nt authority\system" and leave the password blank.

Run a .bat file in a scheduled task without a window

7. a. bedescribes a state that exists. b. beingdescribes a temporary behavior: the children are acting awfully quiet. 8. a. is appearingdescribes the action of performing on
