Visual Studio - Command to collapse all sections of code? What are the various "Build action" settings in Visual Studio project properties and what do they do?

visual-studio delete - Visual Studio(2008)'Clean Solution ...

Build solution will perform an incremental build: if it doesn't think it needs to rebuild a project, it won't. It may also use partially-built bits of the project if they haven't changed (I don't know how far it takes this) Rebuild solution will clean and then build the solution from scratch, ignoring anything it's done before. The difference between this and "Clean, followed by Build" is that ...
