Visual Studio 2005 - Solution Explorer
I believe the most promising way to achieve thisis to first create a blank solution (File -> New Project -> Other Project Types -> Visual Studio Projects -> Blank Solution). This gives me a blank solution wich is visible in the solution explorer. I then right-click this solution in solution explorer and choose "Add -> New Web Site".

Visual Studio 2005, Solution vanishes from Solution Explorer
In Visual Studio 2005, whenever I would view a file in the main editor, the Solution Explorer would find and highlight that file. Some time ago, this stopped working and the Solution Explorer would do nothing. This has become quite a pain since following a chain of "Go To Definition"s can lead you all over your solution.

Forcing the Solution Explorer to select the file in the ...

This add-in adds the ability to open Windows Explorer at specified locations and to execute the application in 'Windows Explorer mode'. When I use the Visual Studio environment, sometimes I have to open 'Windows Explorer' in the folder of the solution to do some tasks as copy files, rename files ...

Explorer - A Visual Studio 2005 add-in which interacts ...

That's great except that I'm still starring at most of the files and folders in the solution explorer. With this macro added to Visual Studio all I have to do is click a button and every folder and it's child folders collapse in the explorer. I'm not the first person to come up with something like this.

Collapse All Folders in VS Solution Explorer - kylefinley.net

Because the References folder in Visual Studio 2002 and 2003 does not represent an actual folder in your Web application, Visual Studio 2005 also removes the References folder from Solution Explorer. To access the references for your project in Visual Studio 2005, you should use the Property pages for the project.

Improvements in Visual Studio 2005 | Microsoft Docs

When I have an open code file in Visual Studio that I am editing I would like to keep that same file highlighted inside of the solution Explorer so that I know where I am at. What I'd really like is to change the focus to a different code file and the solution explorer to move to the file that I am editing. Further Explanation and example:
