What is the usefulness of the Command Window in Visual Studio (menu View-> Other Windows-> Command Window)?. I know that the Visual Studio Command Window is used to execute commands or aliases directly in the IDE. The MSDN article Command Window explains how one can use the command window to print debug statements, but I feel that these can be easier executed in the Immediate Window.

Visual Studio Command Window - Stack Overflow
Open the Solution Explorer. Along the toolbar at the top there is a tool Show All Files (it is the 2nd from the left on my version of visual studio).
