...is much more logical. I also find the C# method of having to prefix arguments with the word out confusing, particularly as you have to do it both in the called and calling routine.. 9 – Strictness. C# is a much fussier language than Visual Basic (even if you turn Option Strict on in Visual Basic, this is still true). "And a good thing, too!", I hear you cry.

10 Reasons Why Visual Basic is Better Than C# - Simple Talk

RegExpFind (Returns information for a single match from the input text, or an array of all the matches. Info returned can be the match Value, starting character position, or Length for a single match, or for all matches)
